

# Chris O'Brien's 7-point checklist

## **Getting your forum posts answered**

To ensure you get your forum questions answered, make sure you carry out ALL of the steps below. You'll get experts answering your questions before anybody else's, and they'll love doing it too!

- Read the forum rules and guidelines**
- Give the context and be specific**
- Post the error message if you have one**
- Describe the behaviour**
- Comment your code**
- Use code tags**
- Include line numbers**

For more of an explanation of each of these, see my blog post at
